

VISUAL ARTIST REGISTRY

The purpose of the *Visual Artist Registry* is to link artists with public and private property owners interested in commissioning visual artwork and other public art-related projects to beautify and promote art within

Downtown.

Regina Downtown Business Improvement District believes that public art builds bridges between generations and cultures by establishing a common ground for dialogue. Public art creates positive landmarks that foster a sense of identity, pride and ownership and can act as a deterrent to acts of vandalism. As part of the registry artists will have access to Downtown projects, will be able to bring forth ideas for possible projects, be available for Downtown businesses (they will have access to the registry for future projects), vacant window displays, Art Jams and Showcases, temporary installations and other events.

Neighbourhoods that integrate public art will significantly enhance the quality of life of their community.
